This movie is based on David and Goliath the Old Testament story that is now updated to modern times. It is explained here that all hope is created by God the creator. Also discussed is the role of the heart to help to keep pushing your aim to tame your own 'dragon' forward. 'How to Train your Dragon' is a fun and informative way to see how the highly active approach is the best in making your hopes and dreams become possible.

*Hope is a hustle while you wait*
